Screen Shot Recording Sheet/Quiz Name_____

Period_____ Date_____

Open your website screen shot in Photoshop Elements. Use the Color Picker eye dropper to find out exactly what colors are being used on the website. Record your results on this sheet. Your answers should be given with both the color and the exact hexadecimal equivalent. For example, Blue #333366.

This is a graded assignment. The first 7 items are worth 10 points each. The short essay is worth 30 points.
* Required

What is the predominant background color on the website you sampled? *

[   ]

What color is used for the paragraph text?

[   ]

What color is Heading 1 (h1)?

[   ]

What color is Heading 2 (h2)?
If you sense that there isn't and h2, record the same color from h1.

[   ]

What color is Heading 3 (h3)?
If you sense that there isn't any h3, record the same color from h2.

[   ]

What is the link color (a:link)?

[   ]

Are their any other colors used in the color scheme of this page? Record them below, and describe what they are used for.
Record only colors that are part of the basic color scheme. Do not include colors from images that are inserted in the page.

[   ]

Write a short essay on why you chose this website.
Give your opinion about why you think the website's color scheme is effective. Address the issues of contrast and readability.
Finally, write about whether or not you would use this color scheme if you were designing a new website.
